410 & 420 Series, Long-Handle Faucets

Style, Safety, and **Extra Accessibility**

The 410 and 420 Series, Long-Handle

A durable and safe solution that offers **increased accessibility**.

The 410 and 420 Series offer an affordable single control option – now with a longer handle – that combines the durability of solid brass construction with the dependability of a time tested ceramic mixing valve. The long handle makes the faucet easy to operate: users can turn the water on and off without grasping.

Unsurpassed Durability

The solid brass, chrome plated body is backed by a lifetime warranty.

Reliable Operation

High quality ceramic discs are tested up to 4.5 million full motions.

Added Safety

Available with TempShield® integrated ASSE 1070 compliant scald protection.

Longer Handle

ADA compliant handle requires less reach and can be operated without the need to grasp, pinch, or twist.

Vandal Resistance

Vandal resistant handle and outlet options to withstand the roughest of environments.

Water Savings

Low-flow outlet options to help support water conservation efforts.

Single Hole

Model	Flow Rate GPM
410-E2805-717AB*	0.5
