

CF Connect App

An easier way to **maintain your water system's health** and manage your touchless faucets.

The CF Connect App

It's **easier than ever** to adjust and manage Chicago Faucets touchless products.

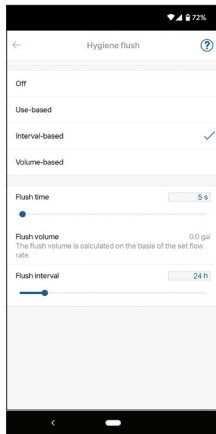

Chicago Faucets products with Bluetooth® technology* can be monitored and adjusted with a smartphone or tablet. The CF Connect App provides diagnostics that make it easier to maintain the health of your facility's plumbing system.

Schedule Advanced Hygiene Flush

Keep water lines clear and fresh

Use-Based

Flush activated after a predetermined time from the last use

Interval-Based

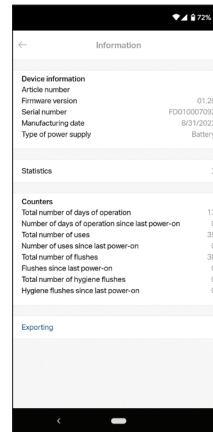

Flush activated after a predetermined time

Volume-Based

Flush activated if a minimum amount of water has not passed through the faucet during a pre-determined interval

View and Download Faucet Data

With detailed information on each faucet

Statistics

Visual bar graphs for daily, weekly, monthly, annual activity. Includes flushes, uses, and water consumption.

Counters

Overview of the total number of:

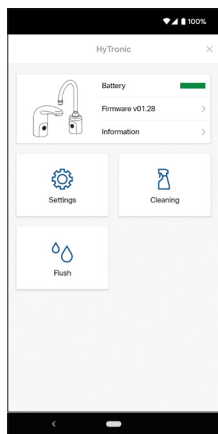

- Days of operation
- Uses
- Flushes

Device Information

Provides firmware version, serial number, manufacturing date, and type of power

Make Quick and Easy Adjustments

Maximize the performance of your faucets

Settings

Make adjustments to beam detection
Change operating mode
Turn on smart power saving
Schedule hygiene flush
Adjust flow rate
Restart faucet
Restore to factory settings

Cleaning

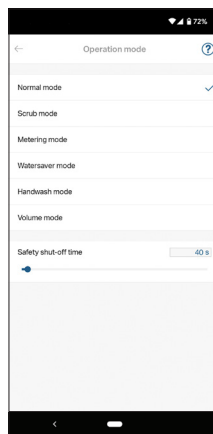

Pause faucet operation for up to 20 minutes to allow easy cleaning.

Flush

While performing routine maintenance, the faucet can be flushed for up to 10 minutes.

Optimize Performance

Or set for specific applications
